

Silent Inspector Training Plan

Overall Training Goal

Equip the user with the skills needed to perform duties in association with dredge contract monitoring and administration using the Corps Silent Inspector (SI) system.

Learning Objectives

Upon completion of this course, attendees will be able to:

- Identify SI applications and be familiar with their use
- Navigate within the SI software applications
- Create and update projects
- Develop plots for reports and other informational purposes
- Gather and create data files for analysis
- Reduce data requests for project information

- Perform Ship Server backups
- Upload backups to Shore System
- Diagnose system malfunctions
- Incorporate additional comments and observations into the database

Learning Activities/Strategies

- Discussion of SI PowerPoint presentation
- Hands-on assignments
 - Create project/contracts
 - Assign a dredge
 - Add/Edit contract specifics
 - Assign disposal area
 - Create plots
 - Create data files
- Plot and discuss good vs. bad data
- Hand-outs and instructional media for quick reference tool

Documentation of Learning

Each attendee after successful execution of course assignments will receive a certificate of completion which includes total professional development hours (PDH) that can be used for verification of training for engineering licensure.

Course Evaluation

Each attendee will complete a survey that evaluates the instructor's performance to aide in future instructional enhancements.

Implementation

Initially SI training workshops will be conducted at a central location within each Division. Thereafter the workshop will be scheduled based on regional/division request.

Division	Training Location	Tentative Dates
CESWD	Galveston, TX	6-7 July 2006
CEMVD	St. Paul, MN	October 2006
CESAD	Mobile, AL	October 2006
CESPD	Sacramento, CA	November 2006
CENAD	Norfolk, VA	November 2006
CENWD	Portland, OR	November 2006
CELRD	Detroit, MI	December 2006
CEPOD	Honolulu, HI	December 2006
